

Experience the MAX.

With its user-friendly features and simple 'twist and go' operation, the XMAX 125 makes urban life so much easier – and a whole lot more enjoyable. Designed for everyone who values their time and independence, this stylish Sport Scooter is so much more than a means of transport. It's a new way of living.

Designed for commuters with a B-license*, the XMAX 125 is a stylish and accessible way to take control in the city. Its class-leading specification includes a responsive and fuel-efficient EURO5+ engine for brisk acceleration – and with a plush dual seat and motorcycle style front suspension, first class comfort and confident handling are assured.

(*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding.)

- 4,3-tommers LCD-instrumenter
- Smarttelefonilkobling
- Dynamisk kåpedesign
- Radikal X-formet frontlykt
- Ergonomisk sete som er lett å entre
- Høyt monterte blinklys foran
- Full LED-belysning
- EURO5+ Blue Core 125cc engine
- Plass til 2 hjelmer
- Antispinnsystem (Traction Control System – TCS)
- Nøkkelfri tenning med smartnøkkel

As well as being one of the most dynamic looking models in the 125cc class, XMAX 125 is also extremely practical. There's plenty of storage under the seat, with additional space in the two front compartments – and there's also a USB Type C socket. And Yamaha offer a range of Genuine Accessories that make it easy to build your very own personalized Sport Scooter.

Experience the MAX.

The iconic MAX family of Sport Scooters is Yamaha's leading line of premium commuter and leisure models. With its dynamic styling, first class comfort and user-friendly technology, the XMAX 125 is the perfect introduction to the world of two wheels for B-license* riders who want a smarter way to get into the city. (*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding.)

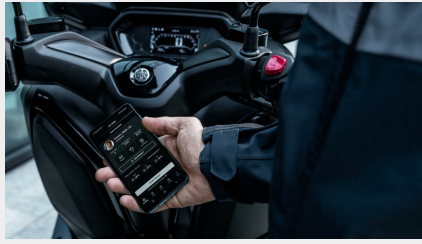

Driven by a responsive and fuel efficient 125cc EURO5+ engine with fully automatic 'twist and go' transmission – and equipped with ABS and traction control for added rider confidence on slippery road surfaces – XMAX 125 is fully equipped for the daily commute. And with connected 4.3-inch LCD instruments it's easy to stay in touch.

A Start and Stop system boosts fuel economy and minimizes emissions – and to power your devices there's a USB Type C charger. The large storage compartment under the seat is designed to accommodate two helmets*, and for added convenience and security the XMAX 125 comes with Smart Key keyless ignition. (*Depending on their size and shape.)

4.3-inch LCD instruments

Designed to convey key information in a clear and simple format, the 4.3-inch LCD dash displays a wide range of useful data. Above the central digital speedometer there's a bar style tachometer, as well as an intuitive series of icons that show you fuel, engine temperature, flashers, high beam and more.

Smartphone connectivity

It's easy to get connected on the XMAX 125. All you need to do is download the free MyRide App and pair your smartphone with the 4.3-inch LCD display, and you can view notifications of calls, emails and messages. You can also access machine running data including average fuel consumption, trip details, speed, ride time, lean angle and more.

Dynamic body design

Every model in the iconic Yamaha MAX family is directly related to the legendary TMAX Maxi Scooter that has established a cult status throughout Europe. From the boomerang side motifs through to the angular bodywork and dual LED headlights, everything about the dynamically styled XMAX 125 is shaped by pure MAX DNA.

Radical X-shaped headlight

MAX models are constantly pushing at the boundaries of sports styling and bringing advanced motorcycle design and technology to the Sport Scooter world. Featuring a dramatic X-shaped LED headlight and position light configuration that perfectly matches the dynamic bodywork, the XMAX 125 brings a bold and futuristic look to the street.

Ergonomic seat with easy access

The combination of a well-padded stepped dual seat with a spacious footboard area and foldable passenger footrests makes the XMAX 125 one of the most comfortable ways to commute. The easy access cockpit means that you can get on and off quickly and easily – and the relaxed ergonomics and excellent wind protection ensure a stress-free riding experience.

High-mounted front flashers

For excellent visibility the XMAX 125 is equipped with high mounted front flashers that are integrated in the body panels. Being located in this high position, the LED flashers are designed to be clearly visible to other road users when you're filtering through dense traffic conditions.
